

Standards for Quality of Life
Reflect on I Corinthians 1:18-2:5

Community development evaluators help others make wise judgments, based on verifiable evidence, about the quality of their lives.

Judgments are made against some set of standards. There are many types of standards used to judge quality of life. Wealth, prestige, health, happiness; are but a few.

Christian evaluators, however, should use standards revealed by God through the life, crucifixion, and resurrection of Jesus Christ. Quality of life is measured against love of God and love of neighbor.

O Lord, may my evaluation work help others to focus on those standards for quality of life that lead to eternal life. Amen
